

**Manitowoc Lutheran High School
Federation Meeting**

Transportation Report
Vice Chairman: **Mr. Matt Menges**

Date of Meeting: Saturday, November 15, 2025

We are blessed with a team of dedicated volunteer drivers, and Mr. Holper is doing an admirable job managing the routes.

The maintenance staff are doing a great job taking care of the three vans. They have a maintenance log for all the vehicles, and they've been providing periodic reports detailing mileage and recent and planned maintenance. All three are relatively new, and God willing, should serve us for several more years before needing replacement.

Due to a handful of students obtaining their driver's license and no longer needing MLHS to provide transportation, we may be combining the two southern routes into one. If/when that is done, we will be down to two daily routes.
