

Manitowoc Lutheran High School Federation Meeting

MLHS ADMISSIONS REPORT
Admissions Chair: **Mr. Jeremy Fischer**

Date of Meeting: Saturday, February 14, 2026

Freshman Admission Projections

Projections for our incoming 2026 Fall freshman class continue to be at the 80 to 70 student mark. Fall 2027 shows potential for higher enrollment since many of the Federation seventh grade classes are larger than this year's eighth grade classes.

Lancer Field Trips

Mr. Ryan Holper finished Lancer Field Trips with grade schools. Prospective students got to attend MLHS classes, take tours, and ask questions.

Lancer for a Day (January 16)

We had 100 eighth graders and 117 seventh graders attend, which was a record since Ryan Holper became involved with the program. Students participated in FUN, bowling, pizza, dancing, and other activities. Above all, grade-schoolers made new friends with potential freshman classmates at MLHS. Friendships influence where kids want to go to school.

Hot Shot Basketball

Ryan has been coordinating basketball shooting competitions at our grade schools. Winners attend an event at MLHS.

Freshman Information Nights (January 28 & February 4)

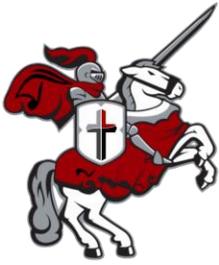

High school faculty were available for tours and introductions, classrooms were open, the robotics team showed their projects, and snacks were available. Admissions Committee members greeted families.

A total of 69 prospective families attended. 57 course selection sheets were turned in.

Blessings to Report

MLHS has been blessed by the Lord! Our academics, athletics, e-sports, robotics, and fine arts programs are being noticed in the community and region. Public school boards have remarked that MLHS is a strong competitor for their enrollment. Our senior class and teachers lead by example to positively impact school culture and our local community.

Respectfully submitted,
Jeremy Fischer
