Manitowoc Lutheran High School
Federation Meeting

MLHS TRANSPORTATION REPORT
Vice Chairman: **Mr. Matt Menges**

Date of Meeting: Saturday, August 8, 2026

All three Lancer vans were taken in for maintenance this past week. The deer-damaged grill was replaced, and other routine maintenance was performed in preparation for the upcoming school year.

We are planning to start the school year running one daily student transportation route, to Green Bay. Mr. Holper contacted the families in the outlying areas, and all the students in the Keil, Sheboygan, and Howards Grove area have arranged to ride in with older siblings or local families. Mr. Holper has been recruiting and/or reconnecting with drivers, and he will be holding a meeting for the drivers on Aug 17th. Having only one student transportation route will open the vans up for other school use.
